FREEWAY COLORSTEEL PALETTE

COLORSTEEL®

The COLORSTEEL® MAXX® palette features a range of colours inspired by our stunning surroundings. It's made up of shades that have stood the test of time and tones that are trending right now, and has something to suit every style and era of home or building, in every part of the country.

The COLORSTEEL® prepainted steel colours shown on this site have been reproduced to represent actual product colours as accurately as possible. However, we recommend checking your chosen colour against an actual sample of the product before purchasing, as limitations of web palette colours affect colour tones.
